Technical Specifications

Power input (W)	1200
Voltage main supply (V AC)	230
Weight (kg)	10
Noise Level, LpA (dB)	59
Main frequency (Hz)	50/60
Dimension LxWxH (mm)	450 x 360 x 600
Volume flow air (l/min)	3700
Vacuum (mbar)	250
Tank volume (l)	30

Mirka DEROS 650CV 150mm 230V Orbit 5.0 UK

MirkaCode MID6502022UK

This upgraded Mirka DEROS has an integrated vibration sensor and is equipped with Bluetooth low energy technology. Download myMirka from the App Store or Google Play to monitor vibration levels. The Mirka DEROS 650CV direct electric random orbital sander has a 150 mm (6") pad and 5 mm oscillation. The high efficiency brushless motor runs on a mains voltage of 220V - 240V with no external power pack necessary. It has plenty of power to get the job done quickly; with a performance comparable to a conventional 500W electric machine, it maintains constant speed even under heavy load. Mirka DEROS has a soft start function, a built-in electronic motor brake and a smooth, easy-to-operate lever to control motor speed. It is equipped with a backing pad that has a central air inlet; the improved air flow helps extract dust even fast. The unique symmetrical design makes the Mirka DEROS just as comfortable for left-handed as for right-handed use, and it can also be used with two-hand grip. Mirka DEROS is the lightest electric machine on the market, suitable for general sanding of all kinds of surfaces, particularly for smaller areas.

Technical Specifications

Power input (W)	350
Voltage main supply (V AC)	220-240
Speed (rpm)	4000 - 10000
Orbit (mm)	5
Size of pad (mm)	150
Weight (kg)	1
Noise Level, LpA (dB)	71
Vibration level (m/s ²)	3.4
Dust system	Central vacuum ready
Packaging	Cardboard box
Pad included (code)	8292605011
Main frequency (Hz)	50/60
