

YH-14 BLUE/ Masking Tape

PRODUCT CHARACTERISTICS

YH-14 BLUE/ Masking Tape is a type of masking tape used for indoor and outdoor painting. UV resistance more than 14 days. YH-14 has the same quality with 3M-2090.

COMPOSITION

Acrylic Adhesive
Crepe Paper

Feature

- Heat-Resistant and UV resistant.
- The tape has good storage stability and storage long times.

Application

Suitable for indoor or outdoor painting projects, this tape yields precise paint lines and can be used on a variety of surfaces, including walls, glass, metal, and window and door trim. The tape is UV-resistant and does not cause surface damage, even when exposed to direct sunlight.

Performance Parameter

Article	Parameter
Type of Adhesive	Acrylic
Backing Material	Crepe Paper
Thickness (um)	145
Initial (#)	22
Adh. to steel (N/inch)	4.5 N
Adh. to backing (N/inch)	1. 4-2. 6
Tensile Strength (N/inch)	≥60
Elongation (%)	≥11
Heat Resistant (°C)	100/long term 120/Two hours
Holding Power (hours)	≥12
UV Resistance	≥14 Days
